19. ABSTRACT (Continue on reverse if necessary and identify by block number)					
<p>This is a bibliography on metrication, the conversion to the International System of Units (SI), compiled from citations dated from January, 1977 through July, 1989. Citations include books, conference proceedings, newspapers, periodicals, government and civilian documents and reports. Subject indices for each type of citation and an author index for the entire work are included. A variety of subject categories such as legislation, construction, avionics, consumers, engineering, education, management, standards, agriculture, marketing and many others are available.</p>

## PREFACE

As one of the foremost information sources in the Department of the Army, the Redstone Scientific Information Center (RSIC) continues its efforts to serve the needs of its users. This bibliography is intended to facilitate the conversion to the metric system by all Federal agencies, as required by Public Law 100-418 and Department of Defense Directive 4120.18.

The selected coverage includes books, periodicals, conference proceedings, documents, reports, and newspapers. Coded citations indicate items in RSIC's collection. Interlibrary loan requests may be submitted.

The bibliography was compiled and edited by C. Ray Smith and M. Beth Powell. The following RSIC staff members provided invaluable assistance: Martha Knott, Joyce Plaster, Yvonne Stewart, Rose Sidick, and Doris Cornett. Special contributions were made by John O. Aberg of NASA and Ernst Lange, compiler of the 1976 bibliography Information on the Metric System and Related Fields.

Periodic updates of this bibliography are planned. Further information may be obtained from Redstone Scientific Information Center by writing:

## TABLE OF CONTENTS

Books	1 - 11
Conference Proceedings	12 - 28
Documents	29 - 44
Periodicals/Serials	45 - 64
Newspapers	65 - 74
Standards	75 - 81
Author Index	82 - 89

A subject index may be found at the end of each section.
